

JOIN CELI FOR EMPOWER20

emPOWER is CELI's signature annual conference. This year, we'll gather online for three days of workshops, panels, and networking dedicated to driving an equitable, resilient, and decarbonized energy future. As the energy sector undergoes rapid change, energy leaders need technical depth, a multidisciplinary perspective, and a network of experts to collaborate.

Join emPOWER20 to connect with leading experts and recruit top talent in the energy ecosystem.
